EXPERIENCE

Full Stack Web Application (MERN)
Jan 2025 – Jun 2025
Tools/Tech: React, Node.js, Express, MongoDB, JWT
Description: Developed a full-stack responsive web application using the MERN stack, focusing on seamless user experience and secure backend operations.

- Built a responsive UI using React with component-based architecture.
- Developed backend services using Node.js and Express with RESTful API design.
- Implemented user authentication and authorization using JWT.

Personal Portfolio Website
Tools/Tech: React, EmailJS / Form Handling, Deployment Tools
Description: Created and deployed a responsive personal portfolio website to showcase projects, skills, and professional details.

- Designed and developed a modern, responsive React-based portfolio.
- Integrated an interactive contact form and project demonstration sections.
- Deployed the site and included the hosted link on the resume for easy access.
